Quality certificates at BRAND

A certificate in every package!

All BLAUBRAND® volumetric instruments (Class A), Class A plastic volumetric instruments, and Liquid Handling instruments for volume measurement are supplied with a certificate. This reduces both the cost of your initial assessment and the monitoring of measuring instruments. The data can be easily transferred from the certificate.

What is listed on the certificates?

BRAND lists all measuring instruments used and the date of issue on each certificate. Each certificate also includes the Declaration of Conformity in accordance with the German Weights and Measures Act and its regulations. Either a batch number (batch certificate) or a serial number (individual certificate) is printed on the certificate and on the instrument.

e.g. BLAUBRAND® batch certificate

Declaration of Conformity in accordance with German Weights and Measures Act for BLAUBRAND® volumetric instruments

The following certificates are available for

BLAUBRAND® volumetric instruments, Class A plastic volumetric instruments:

- + batch certificate with a batch number, mean, standard deviation
- + individual certificate with individual serial number, measured volume, measurement uncertainty

Liquid Handling instruments for measuring volume

- + individual certificate with individual serial number, measured accuracy, measured coefficient of variation

USP individual certificate

Companies that manufacture pharmaceutical products for the American market and are therefore audited by US authorities, e.g. the FDA (Food and Drug Administration), are required to comply with the requirements of the USP (United States Pharmacopeia). BLAUBRAND® USP volumetric instruments comply with the Class A error limits required by the USP. There is no such regulation for liquid handling devices.

For selected BLAUBRAND® volumetric instruments, we confirm the required volume error limits with a batch certificate and upon request, with an individual certificate. The error limit and the USP characters are printed on the measuring instrument.

DAkkS calibration certificate

As an official certificate, the DAkkS calibration certificate documents the traceability of the measured values to national and international standards such as, among others, to the DIN EN ISO 9001 and DIN EN ISO/IEC 17 025 standards required for the monitoring of measuring instruments.

BScE shall not be liable for any usability that was not expressly confirmed by BScE in writing. In the case of material or design requirements of the customer, BScE shall accept no liability for the suitability or permissibility of the desired materials or designs, and shall, in this respect, have no particular testing obligation. Compliance with safety-related and occupational health regulations depends on the location and operating conditions of which BScE has no prior knowledge. Action for ensuring compliance shall therefore be the responsibility of the customer or his buyer.

The restriction of the limitation period shall not apply to claims based on fraudulent concealment of a defect, for claims under the product liability law or for damages resulting from injury to life, limb or health and other damages based on intent or gross negligence. The limitation period in respect of replaced or repaired goods shall not commence anew.

- 8.2 The customer shall only be entitled to copy, transfer or translate the software or to convert it from object code to source code to the extent permitted by law. The customer undertakes to refrain from removing manufacturer information, in particular copyright notices, or from changing these without prior express consent of BScE or the prior express consent of the software supplier.
- 8.3 All other rights to the software and the documentation including copies thereof shall remain with BScE and/ or the software supplier. The issue of sub-licences is not permitted.

9. Installation

- 9.1 Installation costs may be invoiced on a monthly basis. Fixed installation prices shall only cover the work that has been agreed upon. In other cases the current BScE price list for installation and service costs shall apply.

- 10.1 For spare parts and maintenance, repair and calibration services, the current BScE repair and exchange price list shall apply.
- 10.2 Insofar as there is an obligation on BScE to maintain/supply spare parts, then this obligation shall be limited to a period of five (5) years from the date of delivery. If spare parts are no longer available on the market, for example electronic components, or if the raw material for their production is no longer available, the obligation of BScE to deliver spare parts shall lapse.
- 10.3 For calibration and maintenance, expendable items from BRAND/VACUUBRAND production are normally used.
- 10.4 Maintenance and calibration services can only be provided if the customer has declared the devices sent to be safe to work on from a health hazard perspective.
- 10.5 For repair/service values of up to INR 7500 BScE reserves the right not to provide a separate cost estimate.

11. Legal Reservation, Industrial Property Rights, Confidentiality

- 11.1 BScE reserves ownership and all industrial property rights and copyrights to all moulds, tools or other devices, samples, pictures, and business and technical documents produced or provided by BScE. This also applies where the customer has wholly or in part taken on the costs hereof. The customer may use these only in the manner agreed with BScE. Without prior written consent of BScE, he may not himself manufacture contractual objects delivered nor have the same manufactured by third parties.
- 11.2 Insofar as BScE delivers goods according to the designs or other requirements specified by the customer (models, patterns etc.), the customer shall be liable to BScE by default for ensuring that, through the manufacture and delivery of these goods, the industrial property rights or other rights of third parties are not infringed. If the customer is at fault he shall reimburse BScE all damage resulting from any such infringement of rights.
- 11.3 Any information acquired from this business relationship and not deemed to be public knowledge must not be disclosed by the customer to third parties.
